## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-2, drawn to a colored shaped article.

Group II, claim(s) 3-8, drawn to a process for producing colored shaped article.

Group III, claim(s) 9-11, drawn to a shaping apparatus.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature, a colored shaped article, linking the two inventions found in Groups I and II do not provide a contribution over the prior art, and no single general inventive concept exist. Claims 3-8 disclose using a colored shaped article, but do not specify using a colorant of non-volatile ink of Group I. Groups I and II are either obvious or anticipated by WO 97/09168 to Popat et al. Groups I and III do not share the same technical feature, namely Group III claims 9-11 disclose a desired shaped article comprising an additional mechanism, but Group I does not employ an additional mechanism. Groups I and III are either obvious or anticipated by WO 97/09168 to Popat et al. Groups II and III do not share the same special technical feature, namely Group III does not include forming an

external wall by curing a region of Group II. Groups II and III are either obvious or anticipated by WO 97/09168 to Popat et al.

3. A telephone call was made to Lathrop, David N. on 8/2/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
